## **Thermotech's Masonry Stoves**

JON JENNINGS AND Thermotech Masonry have unique and extensive experience designing and constructing brick bake ovens and efficient masonry stoves for Maine homes and businesses.

JON DESIGNED AND built the large-scale brick bake oven and grill (shown above & right) for the Harraseeket Inn in Freeport in 1996. It has been fired for heating and cooking every day since then.

THE MASONRY STOVE at left was designed by Jon and built by him and his masons in 2004 at the Manchester location of Thermotech's retail operation, Forgotten Stoneworks. This 4x8-foot brick and stone stove features a brick bake oven, Russian fireplace, cast iron cook top, warming ovens and drying shelves. It has a basement firebox with the wood for the year stored next to it.

THERMOTECH MASONRY STOVES keep you warm with less wood.
